The Make IT Model

Our philosophy towards journeys

Cloud Journey

- If you are about to start the journey. The road to a cloud-based infrastructure starts here.
- Milestones and activities of the journey includes:
 - End-to-end cloud adoption. Strategy, architecting to implementation
 - Management (24x7x365 - multilanguage)
 - Cloud security & compliance
 - Multi-cloud solutions
 - Data analytics & advanced analytics
 - FinOps
 - Assessments, consultation, & training

Cloud Journey

It's not where
you are that
we ask.

We know. We've been there
many times with other
customers.

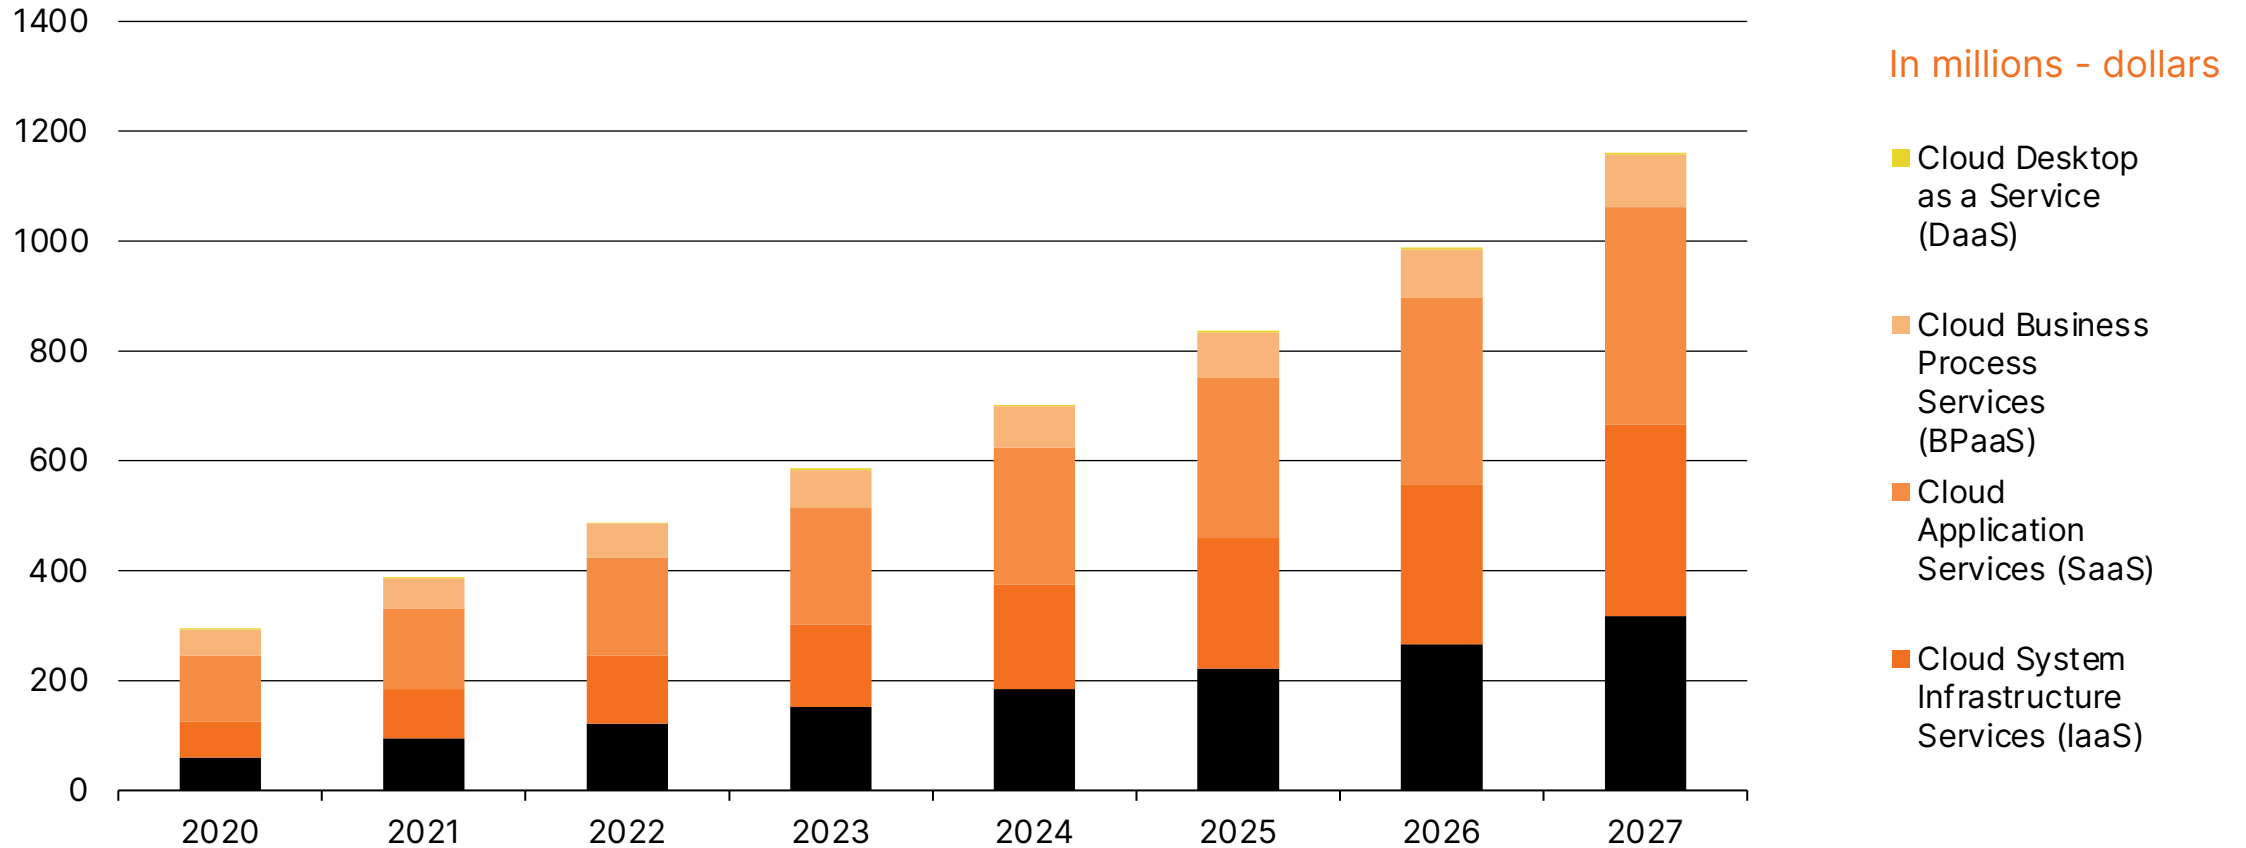

We know the 'next'!

The Cloud Value Is Unmatchable

Here and staying

Cloud exceeds all other IT markets

*Gartner 2024 on public cloud spending

Benefits of Migration

Datacenter, Cost, Technology, & Security Advantages

Avoidance of hardware and physical activities

No datacenter activities and the associated risks. e.g. Hardware, maintenance, or refreshing activities.

Cloud provider

Several options and incentives offered from cloud provider.

Energy saving

Significant energy reduction and DC cooling.

Scalability and resource allocation

Instant scalability of environment and resources.

Up-to-date with latest features

Latest technologies and findings immediately availability.

Security

Key free security features and shared responsibilities.

The Make IT Model

What we promise

Cloud-smart Approach

A journey guideline where our primary focus becomes analysing, aligning, tailoring, and operating a solid plan that considers all aspects of your organization's objectives, applications and service's needs.

Architecting

Innovating an architectural plan based on choices that, while complex, are feasible and beneficial. Allowing us to leverage the latest findings and our experience to address factors and choices such as the cloud model, costs, plan vendor choice, and the technical knowledge needed.

Experience

We allocate a combined mix of expertise to ensure a comprehensive and effective approach. Consultancy, technical knowledge, and PM. An integrated approach that guarantees a smooth, cost-efficient, and effective utilization of cloud technologies through the migration process.

SORINT.lab's Tailored Journey

The make it model – Cloud-smart approach

Discovery

Understanding your organization's business needs, technologies, and objectives.

Strategy

Aligned with your organization's requirements and using principles of FinOps, SORINT.lab at this stage delivers the migration plan. Which includes, for e.g., the strategical principles, cloud model (single, hybrid, or multicloud), cloud migration justification, and risk assessment.

Preparing to Execute

Organizing activities according to the approved proposal plan. From on ground activates, overall project's requirements, tools, skills needed, manpower, knowledge, and logistics.

Migrating

Includes the migration and modernization phase. Plus, mitigation of migration challenges.

Documentation activities.

Managing and Optimizing

Set according to proposal. Activities might include cloud management, cloud financial management, cloud success measurement.

SORINT.lab's Tailored Journey

The make it model - architecting

Leading your organization forward into a new area of opportunities

Multicloud as a new normal

SORINT.lab is multicloud Native!

Cloud providers are opening up to the idea of multicloud by facilitating connections to provide the best service at the best price to the customer. I.e Azure & Oracle Cloud.

Tailored cloud strategy

- **Rebuild**
- **Replace**
- **Rearchitect**
- **Revise**
- **Rehost**

Built on Gartner's 5 R's framework

Application migration strategy

From many, our consultants will help you to choose best path

Onprem is the new cloud

We provide assessment of all onprem cost to optimize your journey

Upon request

SORINT.lab's Tailored Journey

The make it model – Experience instantiated from

Every journey is a unique challenge, but our know-how:

For various industries, Consulted, planned, & implemented cloud related projects for prominent entities in Europe, US, and Africa

Customer retention rate

Dedicated circles specialized and focused on vendor's technologies

Highest grantable certificates in various fields, and "Training Partners" to some vendors

Expert PM with technical background ensuring project's objectives are smoothly met

Flexibility. 24x7x365 multilingual team
