Tackling Challenges Together

A journey characterized by:

- Enabling clients to focus on core business.
- Secured solutions built upon best fitting technologies, practices, & latest findings.
- Quality, & cost optimization.

We harmonize passions!

SORINT.lab – IT Consultancy

We believe in technology that fosters **innovation and human wellness**. Our commitment towards every company, institution or community is to help them run their business and solve their problems through a choice of the best technology.

Providing **digital technology services & consultation** in fields of **software development, cloud solutions, third-party vendor solutions, cybersecurity, data center management, management of daily IT operations, data, machine learning, IT recruitment** and **professional education**.

Delivering services ranging from **discovery and implementation** to **full support 24x7x365**.

SORINT provides IT services to prominent entities in Europe, USA, and Africa. Through a workforce of **1.5K professionals** and a presence spanning **17 offices** located in Italy, Spain, United Kingdom, Germany, France, Romania, Poland, United States, and Cameroon.

The Make IT Model

Our philosophy towards journeys

Modern Infrastructure

Digital Technology Service

- Shifting from traditional infrastructure to a modern approach. Entails aligning with the latest industry standards, best practices, and business needs.
- Projects structured around specific data centre activities, such as
 - Design and maintain hybrid/multi-cloud data centre
 - Fully automation
 - Observability
 - FinOps
 - Security
 - Backup & Storage
 - Virtualization
 - Maintaining and managing the infrastructure
 - Network

Modern Infrastructure

Digital Technology Service

- Platform (OS) consolidation in modern and automated approach. Hybrid & multi-cloud environment:
 - OS/Software installation & configuration
 - Migrating platforms
 - Patching solutions
- Design & maintain container platform
 - On-prem and/or multi-cloud using modern approach, and best practices
 - Open-source or vendor container platform distribution
 - Build CI/CD pipelines
 - Secured container platform with SecOps methodologies
 - Container backup
 - Container observability

Shifting to Modern Infrastructure Means

Adopting cloud technologies

Implementing containerization & virtualization with a modern approach

Adopting automation frameworks

Adopting GitOps frameworks

Adopting modern observability frameworks

Easily upgrading of software & application

Better data management

Scalability

Long-run cost optimization

Specific Activities

Showcase of possible activities

Server creation & consolidation

One click solution.

The right approach to manage VMs & servers in a hybrid & multi-cloud environment

Patching services

Managing & planning security patches with many platforms like Satellite, Foreman, WSUS, SCCM, or other customised ones.

Stay up-to date!

Server migration

From unsupported or discontinued OS. e.g. RHEL 7 & Centos to a supported ones.

Custom automation pipeline and migration process through NGMS (Next Generation Managed Service)

Observability, compliance, & Governance

Defect tracking, management & continuous monitoring.

Defining quality standards, requirement analysis, documentation & reporting ,compliance & standards, test planning & execution

Datacentre automation

Fully automation

Automation frameworks

HW, storage, network devices, Windows & Linux systems. Plus, any kind of platform/software

Containerization

Transition from monolithic to microservice architecture. Full stack solution

GitOps approach for hybrid & multi-cloud orchestration tools. CI/CD application pipeline & DevSecOps

Backup & Storage

Solution design, implementation, advanced support, & task automation

Security hardening of data management infrastructure

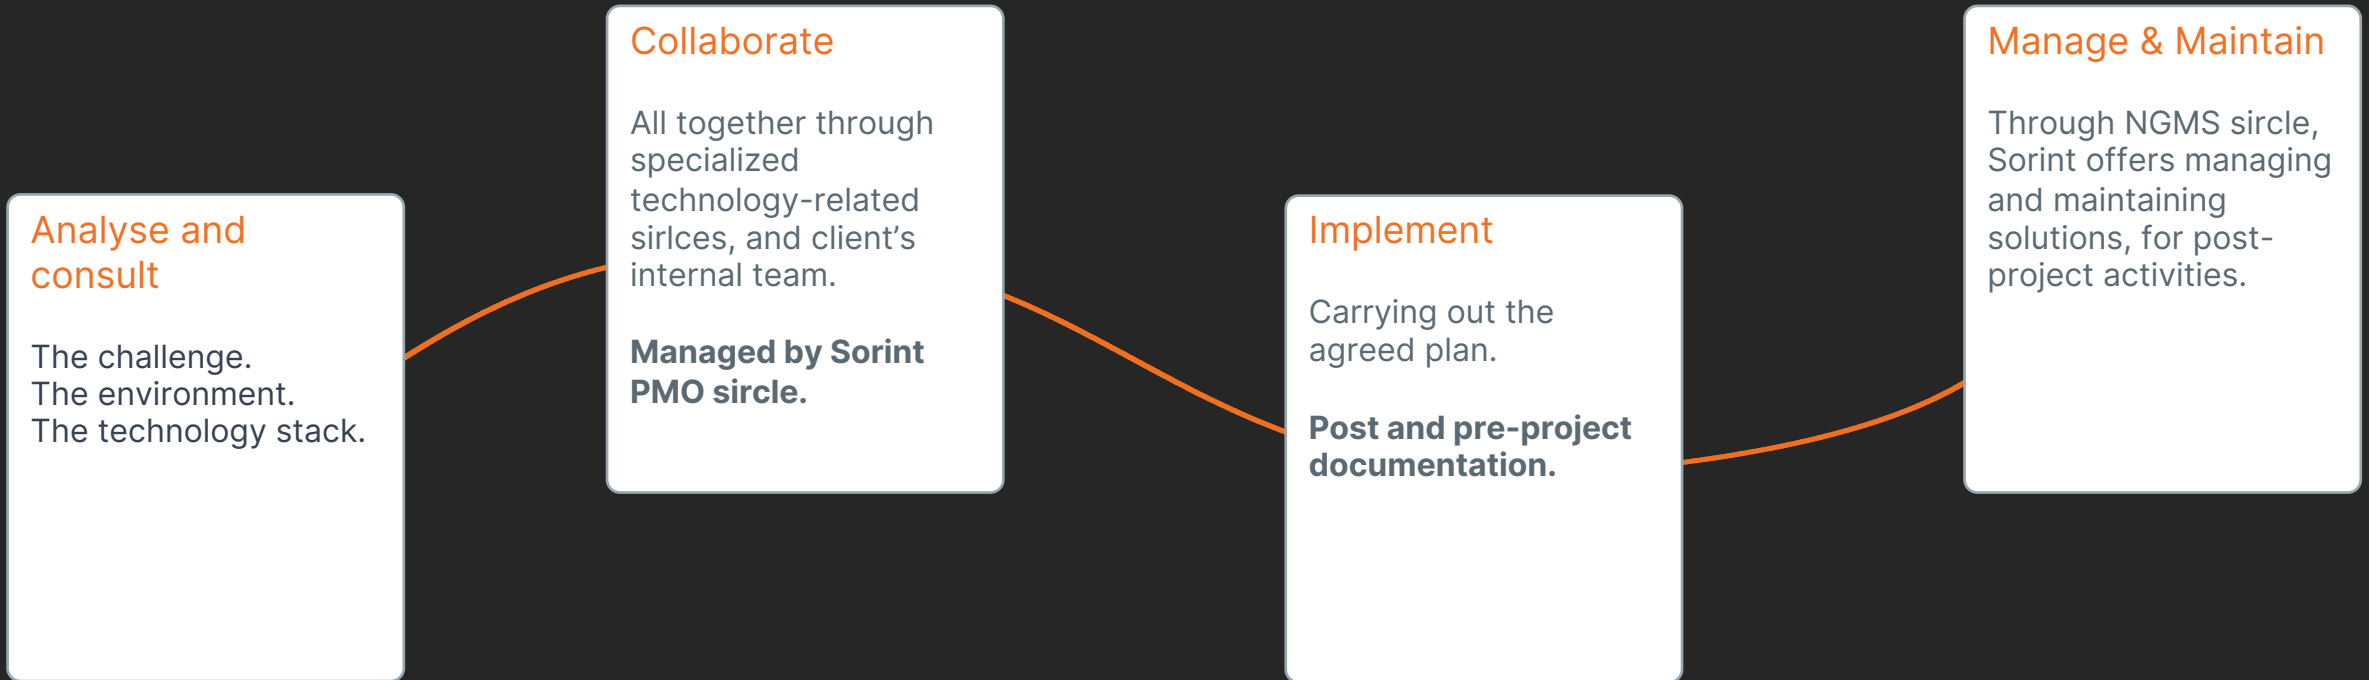

Project Management

Governance to achieve all project's goals with pre-set requirements

SORINT.lab's Tailored Journey

The make it model

Offering optimum solution and roadmap

SORINT.lab's Tailored Journey

Instantiated from

Every journey is a unique challenge, but our know-how:

Executed countless infrastructure related projects to prominent entities in Europe, US, and Africa.

For various industries

Customer retention rate

Dedicated circles specialized in given fields and technologies

Highest certification in various fields and "Training Partner" to some vendors

Expert PM with technical background ensuring project's objectives are met
