Agile Practices

Software development project management solution that embodies set of values, principles, and practices aimed at empowering self-managed, cross-functional teams.

Fosters a collaborative multidisciplinary environment to enhance deliverables and facilitate rapid release to meet project's deadline.

When implemented correctly, agile enables alignment, efficiency and optimization across all SDLC activities:

Requirement elicitation

Gather & aligning feedback

Requirement analysis

Collaboration & communication

Product ideation & design

Agile, Kanban and Lean practices

Breaking-down complex problems

Addressing Common Governance Challenges

The Make IT Agile Journey

We connect, so that everyone becomes part of IT!

Assess & align

1

Evaluate current processes, technologies, and objectives to identify meaningful, skill-aligned changes.

Introduce agile governance

2

Implement agile programs and change frameworks with minimal disruption. Agile adoption happens progressively, ensuring readiness, clarity, and stakeholder confidence.

Optimize collaboration & operations

3

Break down silos, create synergy and innovation. A tailored frameworks focuses on speed, quality, & risk control. So, your teams deliver smarter, not just faster.

Measure what matters

4

Continue to define and make accessible key metrics, KPIs, and success indicators. Because what gets measured gets improved!

Build resilient teams & culture

5

Gradual yet intensive steps towards people-centric processes, helping your team become resilient, adaptable, and consistent through rolling out clear plans, insights, values, and roles!

“ Testimonials SORINTians Appreciated the Most in 2025!

One of the key factors behind the success of the project and our strong relationship with SORINT.lab is the trust we've built. The governance factor of contracting ensured the project is delivered within the set budget, while maintaining flexibility to adapt our evolving needs on the go.

Giordano Sassaroli
Head of Product Development & Management at
ELITE (Borsa Italiana)

Gold medal. SORINT could not do better, perfect! SORINTians were working with illy, not for illy, I had this impression. Always!

Fabio Bogoni
Head of Technology, Operations & Security at
illycaffè's

Synergy, timely management of reports, support, and consistent response time to operational needs stood out for us! ...From the initial phases, the technical team demonstrated expertise, availability, and proactivity. This did not only, facilitate the adaptation of Sorgenia's specific needs but it also fostered a relationship of trust and a shared vision of technological and strategic objectives.

Federico Piavani
Head of IoT at SORGENIA

Behind the Make IT Agile Journey

Technical PMs Managing IT Projects

40 years working with prominent clients in Europe, US, and Africa
