Project Management as a Service

Coordinating IT initiatives on both levels,
infrastructure and software.

Influencing the overall governance
outcomes from consultation, strategical
planning to operational execution:

Success rate

Time & budget

Fostering
collaboration

Mitigating risks

Enabling Smooth
environment &
project delivery

PMaaS Architects Value Through Resources

People, insights, alignments, governance, processes, & tech that deliver!

Assigning instant relevant knowledge

Hands-on expertise in project domains, seamlessly bringing in methodologies, best practices, & ensure alignment with industry regulations & compliance.

Risk Management & quality assurance frameworks

Prevents delays, budget overruns, and hidden challenges before they surface.

Cost & time factor

Quick access to know-how, addressing needs effectively, finding workarounds, recruiting activities, and other optimizable attributes.

Scalability

Swift and on-demand response to sudden necessities of operational resources, tech expertise, and consultations.

Tools & technologies

Collaboration, tracking, and automation tools are examples of various assortment resources we bring in upon need. Proprietary and third-party solutions.

Client's team

Lighten the load on your team, enabling them to concentrate on core business and benefit from cross-functional knowledge sharing SORINT brings.

Flexibility & adaption

Inline roadmaps to match organization's unique mix-of-methodology, tech stack, project complexity, needs, and maturity-level.

Governance & communication

Tailored flow that effectively involves stakeholders, to facilitate regular alignments. Ensuring objectives are inline, communicated, and documented.

The Govern IT Model

High-level overview on our PMaaS Ideology

Discovery & Strategy

Defining objectives, activities, and the governance approach. Complying with the industry and project's regulations.

Planning & Method

Roadmap reflecting processes and standards. Includes quality assurance for consistency, spotting areas of innovation, aligning risk & resource management attributes.

Culture & mindset

Setting the foundations of trust, engagement & the necessary awareness for effective collaboration. Leaving behind sustainable capabilities and successors.

Communication

A scheme for monitoring, analyzing and reporting of activities. Allowing constructive collaboration, timely and insightfully governed between stakeholders.

Delivering Results

A scheme for monitoring, analyzing and reporting of activities. Allowing constructive collaboration, timely and insightfully governed between stakeholders.

“ Testimonials SORINTians Appreciated the Most in 2025!

One of the key factors behind the success of the project and our strong relationship with SORINT.lab is the trust we've built. The governance factor of contracting ensured the project is delivered within the set budget, while maintaining flexibility to adapt our evolving needs on the go.

Giordano Sassaroli
Head of Product Development & Management at
ELITE (Borsa Italiana)

Gold medal. SORINT could not do better, perfect! SORINTians were working with illy, not for illy, I had this impression. Always!

Fabio Bogoni
Head of Technology, Operations & Security at
illycaffè's

Synergy, timely management of reports, support, and consistent response time to operational needs stood out for us! ...From the initial phases, the technical team demonstrated expertise, availability, and proactivity. This did not only, facilitate the adaptation of Sorgenia's specific needs but it also fostered a relationship of trust and a shared vision of technological and strategic objectives.

Federico Piavani
Head of IoT at SORGENIA

Behind the Govern IT Model
