NetApp™

Center of Excellence

Agenda

- Technology's Scope

- Common Activities

- The Make IT Model – Journey Overview

- Why SORINT.lab

- Service's Delivery Model

NetApp

We help organizations secure their data reliably, ensuring a resilient architecture that follows the technology's absolute best practices
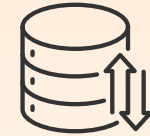

Our portfolio of activities include:

Analysis & solution

Security solution

Data migration & tech refreshment

Service delivery

Business Continuity & Disaster recovery

24x7 monitoring & operations

Common activities

1- Analysis & solution

Assessment
Capacity assessment and growth trend forecasts to ensure your storage scales with your business

Performance
Detailed performance reports to identify bottlenecks and optimize efficiency

Design
Solutions design and cloud integration. Advisor to find the right NetApp solution for your business

2- Data migration & tech refreshment

Data migration
Seamless transition from old 7-Mode to C-Dot Data Ontap, ensuring data integrity

Tech refresh
Migration from legacy NetApp, or third-party storage, to NetApp (SAN, NAS, and Object Store)

Cloud migration
Migration of data from on-premises to public clouds, such as AWS, GCP, Azure, Oracle or others

Common activities

3- Business Continuity & Disaster recovery

Complex projects
Study, design, and implementation of custom complex Business Continuity (BC) projects
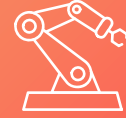

Disaster recovery
End-to-end design and implementation of Disaster Recovery (DR) strategies

Automation
Creation of customized solutions to automate DR procedures, reducing RTO and RPO

4- Security solution

Ransomware resilience
Advanced solutions designed to detect, prevent, and recover from ransomware attacks

Immutable data
Implementation of ,Write Once Read Many (WORM), SnapLock solutions to ensure data compliance and tamper-proof security

Data protection
Comprehensive security audits and hardening of NetApp environments

Common activities

5- Service delivery

Infrastructure
NetApp Cluster, MetroCluster Fabric & IP, StorageGRID

Cloud integration
NetApp CVO, Ontap Select, NetApp AFX built for AI

Public cloud
Amazon FSx for Ontap, Azure NetApp Files

6- 24x7 monitoring & operations

Monitoring
Continuous proactive hardware and service monitoring

Case management
Direct & focal point of support between client and vendor

Day-to-day ops
Routine operations and maintenance to ensure peak system health

The Make IT Model

Overview on the journey

Discovery & Strategy
Defining objectives, activities, solution choice & project governance approach.

Complying with industry regulation

Planning & Method
Roadmap delivery, verification, means of communication, specializations involved, necessary alignments, & attributes of QA are some deliverables of this phase

Implement
Execution activities

Post & pre-project documentation

Testing & Post Support
Validation & verification of all performed activities

Manage & Operate
24x7x365 dynamically tailored operating model defined & regulated through SLA

Multi-disciplinary pool of expertise

SORINT.lab operational capabilities

Quality Assurance team & SLA compliance

Day x ——— Continues support ——— Continues support ——— Continues support ——— Day y

A Multidisciplinary Enrichment

Osircles

A framework which allows effective collaboration across specializations, maximizing value by involving experts from every field. Smoothly!

Managed Services (24x7x365)

Cyber-security

Governance & compliance

FinOps

Green IT

Advanced Analytics

[Technology X] focused

Custom Software Development

Customer Retention Rate

Why SORINT.lab

Experience

Managing Infrastructure projects
40 years working with prominent brands in Europe, US, and Africa

24/7

Strategical & Practical Driven-experience

GREEN IT

PMs with Technical Background

Assessment Portals for a Jumpstart!

130+ entity
Certification & Training
Top-tier in all relevant fields & domains. Certified "Training Partner" to key vendors

Tackling challenges with SORINT.lab

100% Vendor Independent – Purpose

Believe in technology that fosters innovation and human wellness. Our commitment towards every company, institution or community is to help them run their business and solve their problems through a choice of the best technology.

End-to-end Technology Support
Holistic IT & governance capabilities, rather than a point solution
